PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of experience building responsive, high-performance web applications using React, Next.js, and TypeScript. Proven track record delivering enterprise-scale UI features, driving workflow automation that measurably cut delivery time, and partnering cross-functionally to ship polished products for global audiences. Strong foundation in state management, REST API integration, and performance optimization across fintech, healthcare, and SaaS platforms.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS

Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Material UI, Storybook.js

Web & APIs: REST APIs, JSON, API Integration, State Management, Form Validation, Responsive Design

Testing & Quality: Unit Testing, Integration Testing, E2E Testing, Web Accessibility (WCAG), Cross-Browser Compatibility

Performance: Performance Optimization, Lighthouse, Core Web Vitals

Tools & Platforms: Git, GitHub, Vite, npm, Figma, Chrome DevTools, n8n

EXPERIENCE

Software Engineer — Eko Bharat Ventures Private Limited *Feb 2026 - Aug 2026*

- Built reusable React/TypeScript workflows for agent registration, profile updates, validation, and listing management, reducing manual administrative processing time by 90%.
- Architected and built the EkoGlobal website from the ground up using React, delivering a responsive, high-performance UI optimized for international audiences and achieving a Lighthouse Performance score of 87%.
- Developed reusable UI components and integrated frontend workflows with backend APIs, ensuring consistent user experiences and scalable application architecture.
- Designed an n8n-based automation workflow for real-time market-fit news aggregation, cutting manual research effort by 10 hours/week and enabling faster, data-driven growth decisions.

Key Projects: *EkoGlobal, Eko Connect*

Web Developer — Accenture (Di-Hybrid) *Jul 2024 - Feb 2026*

- Delivered 7+ enterprise-level web development projects across multiple industries, consistently meeting strict quality, performance, and accessibility standards.
- Designed and integrated automation scripts into existing development workflows, reducing repetitive manual effort by 50% and improving development efficiency.
- Engineered responsive, accessible, high-performance UIs using React and modern frontend tooling, improving user engagement and satisfaction metrics by 20%.
- Partnered with designers, backend engineers, and QA across cross-functional teams to ensure seamless integration, on-time delivery, and full alignment with client objectives.

UI Developer — Softobiz Technologies Pvt. Ltd. (Hybrid) *Mar 2021 - Dec 2023*

- Developed and delivered 6+ production web applications across healthcare, SaaS, and enterprise domains using React, Angular, and Vue.
- Designed responsive, intuitive UIs that improved usability and accessibility, contributing to a 70% increase in user satisfaction scores.
- Implemented data visualization features and complex multi-step workflows for SaaS and enterprise platforms, improving usability and streamlining business workflows.
- Collaborated with cross-functional Agile/Scrum teams to deliver frontend features, integrate backend APIs, and ensure on-time releases.

Key Projects: *Kochava Search Ads Maven, e-Agent HealthCare, ClientPoint, Cashel Family Office, Hagfen*

EDUCATION

Bachelor of Technology, Electronics & Communication Engineering

Chandigarh Engineering College, Landran, Mohali — 2020

CERTIFICATIONS

• Agile Project Management (Google) • Foundations of Project Management (Google) • JavaScript • Responsive Web Design

ACHIEVEMENTS & LEADERSHIP

Encore - Power Team Award (FY26 Q1), Star of the Project, Pat on the Back, and Trend Setter awards

Led small cross-functional teams on task allocation and delivery; organized corporate team-building events as a member of the Ministry of Fun.
